Dear friend

AN INVITATION TO BE PART OF OUR FUTURE

It is 70 years since the Sisters of the Little Company of Mary established their service in Melbourne and from 1941, provided general nursing and maternity services under the name of Bethlehem Hospital.

Now, 70 years on, Calvary Health Care Bethlehem (CHCB) is part of the Little Company of Mary Health Care national health organisation, providing services to over 2 million Australians. In Victoria, we are one of the largest providers of specialist services in palliative care and progressive neurological disease such as Multiple Sclerosis, Motor Neurone Disease and Huntington's Disease.

Palliative care at CHCB is provided by an interdisciplinary team with expertise in complex pain and symptom management, functional restoration, loss, grief and bereavement, delivering care through our inpatient unit, community services, outpatient and day centres.

We are a not-for-profit organisation, relying on Government funding and donations to provide services to our patients and their families. In order to sustain our current service delivery, and expand and develop new initiatives going forward, please donate to assist CHCB continue the mission of the Little Sisters of Mary, in caring for the sick and dying.

Your support will be appreciated and will make a real difference.

Sincerely

Dr Jane Fischer MBBS, DCH, FACHPM
Chief Executive Officer & Medical Director
